

RAIN BIRD®

SIMPLY, RUGGED.

GUARANTEED

PLAYS ROUGH

We put the ESP-9V through a series of rigorous tests to ensure it reliably performs in any environment. As a result, the ESP-9V was designed with multilayer protection and built with only the best, IP-rated components.

- **Weatherproof keypad** protects against environmental conditions like humidity
- **Dual-sealed battery chamber** keeps dust, dirt and water out
- **Sealed LCD screen** provides next-level protection from the elements
- **Waterproof case** offers outstanding resistance to water ingress, weather, yellowing and aging

WORKS EASY

The ESP-9V has a large screen with an interface that's user-friendly and easy to navigate. And with schedules that can be customized to your specific irrigation needs, you can water more efficiently.

- **Intuitive programming** with common features conveniently located on one large screen
- **Customizable schedule** lets you choose the start times, watering options, and cycles that work for each irrigation zone of your property
- **One-touch watering** allows for quick and easy operation
- **Non-volatile memory** keeps your schedule safe even if batteries are dead

ESP-9V SERIES

Battery-Operated Irrigation Controller

RAIN BIRD®

- **Unmatched 5-year warranty:**
rest easy knowing we have your back if you encounter issues
- **Weatherproof design:**
superior protection from the elements
- **2+ year battery life:**
industry-leading battery life, even in harsh conditions
- **Intuitive programming:**
easily streamline your workflow and irrigate with precision

ESP-9V SERIES

Battery-Operated Irrigation Controller

Get reliable automatic irrigation control, even when you don't have AC power. The ESP-9V Series Battery-Operated Controller offers intuitive programming alongside a rugged design that works in harsh, humid conditions — so it can truly be installed anywhere. It's the clear choice for a **clear view forward.**
