

## Rain Bird® PE Polyethylene Tubing

### Maximum durability

Growers demand reliable performance in the harshest conditions. Rain Bird PE Polyethylene Tubing is engineered and tested to stand up to harsh chemicals, UV radiation and damage that can be caused by farm equipment, giving you years of worry-free performance.

### Application versatility

Rain Bird PE Polyethylene Tubing is ideally suited for all vineyard, orchard, greenhouse and nursery applications, including grapes, hops, stone fruits, almonds, walnuts, pecans and more. It can be placed on surface, subsurface or suspended and used with both online drippers and micro-sprays.

### Made in the USA

Rain Bird PE Polyethylene Tubing is 100% designed, engineered, manufactured and tested in the USA. It is available in a variety of dimensions in standard coil lengths or on big reels to meet your needs.

### Unmatched UV protection

Manufactured from a unique, field-proven resin blend that holds up against destructive UV radiation better than the competition. Resists cracking and splitting to deliver years of reliable operation.

### Outstanding service and support

Over 75 years of Ag irrigation expertise and a strong dealer network to assist you with design, installation, service and support of your system.

### Customer Satisfaction Policy:

Rain Bird's best-in-industry Customer Satisfaction Policy provides 7 years of protection on product workmanship and 7 years on environmental stress cracking. This policy applies only to tubing with a wall thickness of 35 mil or greater.

Rain Bird PE Polyethylene Tubing is ideal for use with:

### Rain Bird® PC Emitter and Lady Bug Series On-Line Emitters

Precise water application, self-flushing action, excellent value

### Micro-Quick™ Sprays & Micro-Bird® Spinners

Low flow micro-sprinklers, save water, energy and labor
