

QF DRIPLINE HEADER

THE INDUSTRY'S FIRST PRE-FABRICATED HEADER
QUICK. FLEXIBLE. EASY. NOW THAT'S INTELLIGENT.

The smart solution to this problem.

- **TIME SAVINGS** – One Coil Saves 3 ½+ Hours of Labor
- **ADAPTABLE** – Flexible coil and rotating elbows are Ideal for any landscape design
- **ALWAYS READY** – Grab n’ Go - Easy to manage and store coil
- **UNIVERSAL** – Works with Rain Bird XF Series Dripline and all other manufacturers
- **RELIABLE** – Robust and Durable, withstands harsh conditions

The QF Dripline Header is a patent-pending product that is the landscape industry's first pre-fabricated header for dripline installations. A Quick and Flexible replacement for a site-built header, the QF Dripline Header saves time and labor expense. Using a proprietary blend of polyethylene, similar to Rain Bird's XF Series Dripline, the QF Dripline header allows installers to simply roll out the header and attach the dripline at guaranteed 12" or 18" spacing. Eliminating the need for measuring, cutting, gluing and taping, the QF Dripline Header saves time and money, making projects more profitable.

Models

XQF7512100: XQF 3/4" Dripline Header (12" Spacing 100' Coil)

XQF7518100: XQF 3/4" Dripline Header (18" Spacing 100' Coil)

XQF1012100: XQF 1" Dripline Header (12" Spacing 100' Coil)

XQF1018100: XQF 1" Dripline Header (18" Spacing 100' Coil)

XQF101210P: XQF 1" Dripline Header (12" Spacing 100' Coil) Purple

XQF101810P: XQF 1" Dripline Header (18" Spacing 100' Coil) Purple

The QF Dripline Header elbows rotate 360° and incorporate a protective ring that surrounds the elbow –preventing damage and ensuring a proper seal. The ring also provides leverage to make attaching the dripline easier.

The rotating elbow also manages trenching misalignment. Move left or right to accommodate the dripline – no need to re-trench.

Elbows utilize the same design as Rain Bird's popular XFF Fitting and requires 50% less insertion force than competitive elbows it also accommodates the XFF Fittings Tool.

Fittings

The QF Dripline Header is designed to work with Rain Bird's all-new TLF Series - Twist Lock Fittings (3/4" and 1" fitting models) which provide an even tighter seal on tubing by using high quality barbs and twist locking nuts.

800 Series TLF Fittings
Compatible with 3/4" QF Header

1000 Series TLF Fittings
Compatible with 1" QF Header

How To Specify

XQF	75	12	100
Xerigation			
Quick			
Flexible			
	Dripline Diameter:		
	75 = 3/4"		
	10 = 1"		
	Emitter Spacing:		
	12 = 12"		
	18 = 18"		
	Coil Length:		
	100 = 100'		
	10P = 100'		
	Purple		

Using the same reliable self-dispensing coil as other XF Series Dripline tubing, the QF Header lays straight when uncoiled and is easy to install around non-linear landscape features. It bends to a 15" radius without damage or kinking.
