

Widest selection of flows
Compact and unobtrusive
Multiple inlet options
Self-flushing action

That's intelligent.

Rain Bird offers the widest selection of pressure compensating emitters in the industry

- **Wide Flow Range** – 9 different flow rate options all color coded for easy identification.
- **Multiple Inlet Options** – 3 different inlet options, self-piercing barb, 10-32 threaded ½" FPT.
- **Uniform Flow** – Pressure compensating design delivers uniform flow throughout a wide pressure range.
- **Durable** – Robust design made from highly inert materials that are resistant to chemicals and UV.

Pressure Compensating Emitters

Model	Inlet			Flow Rate (gph)									How to Specify
	Barb	10-32 Thread	1/2" Thread	0.5	1.0	2.0	5.0	7.0	10.0	12.0	18.0	24.0

XB - T - 05 - PC - 1032

Optional 1032 threaded inlet

Pressure Compensating

Flow
05 = 0.5 gph (1.89 l/h)
10 = 1.0 gph (3.79 l/h)
20 = 2.0 gph (7.57 l/h)

Optional 1/2" FPT inlet

Model Xeri-Bug

PC - 05 - 1032

Optional 1032 threaded inlet

Flow
5 gph (18.93 l/h)
7 gph (26.50 l/h)
10 gph (37.85 l/h)
12 gph (45.42 l/h)
18 gph (68.13 l/h)
24 gph (90.84 l/h)

Model PC: Pressure-Compensating Module

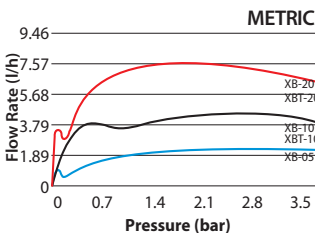

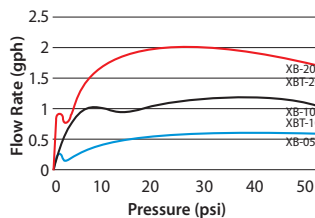

XB - 05 - 6

Number of Outlets 6

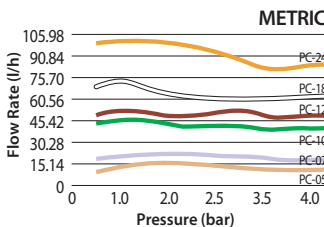

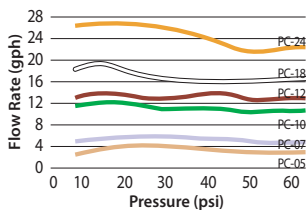

Flow
05 = 0.5 gph (1.89 l/h)
10 = 1.0 gph (3.79 l/h)
20 = 2.0 gph (7.57 l/h)

Model XB: barb inlet
XBT: 1/2" FPT threaded inlet
