Reliable Waterproof Connections That You Can Count On!

DBRY20
(pack of 20 with Red wire nuts)

DBT020
(pack of 20 with Tan wire nuts)

Reliable Direct-Bury Waterproof Connections

- Waterproof silicone sealant (75% more than silicone competition) protects against corrosion.

- UV-material ensures product performance does not degrade even after long periods of exposure to sunlight.

Avoid Callbacks and Install Faster

- The locking lid secures the wire from pulling apart.

Multiple Applications

- 2-Wire controller systems
- Traditional controller systems
- Accessories connections such as:
    - Rain Sensors
    - Moister Sensors

UL486D listed and RoHS compliant
