

- Easily peels off outer plastic jacket from wire in one fast and easy motion
- Saves time, money and labor on installation of 2-wire cable
- Will not nick copper wire like a traditional knife blade
- Min/max wire gauge: Strips #14 – #10 AWG
- Made of heat-treated carbon steel with long-lasting blade
- Comfortable cushioned grip
- Small enough to fit in tight places

### Designed to strip off the outer plastic in four, quick steps.

Rain Bird's UF Cable Stripper makes installation of 2-wire systems easier and faster.

1

Insert 2-wire cable and press UF Cable Stripper

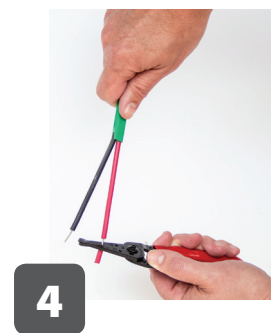

2

Pull UF Cable Stripper, peeling outer plastic

3

Repeat on other side

4

Pull out wires and strip
