

SUBJECT: ESP-Me Indoor Transformer Change

MODELS AFFECTED:

Model	Product ID	Change Description
ESP4MEI	F55100	Transformer Change
ESP4MIXFMR	635640	Discontinued

IMPLEMENTATION DATE CODE: Beginning of June 2019

Introduction:

The ESP-Me Indoor controller F55100 is changing from a plug-in transformer to a transformer built into the controller with an attached power plug. This is similar to other Rain Bird controller models that include the ESP-TM2 and the ESP-ME3.

The ESP-Me Indoor controller will continue to be rated for indoor use only, without a locking door or the weather resistant exterior found in other outdoor controllers.

Service Part Information:

The transformer plug-in service part for the ESP-Me Indoor controller has been discontinued.
