

PREMIUM RUBBER HOSE

Temperature Range:

-40°F to +180°F
(-40°C to +82°C)

Working Pressure:

125psi (500psi Burst)

Important Use And Care Information

- This hose is intended for light commercial and normal lawn and garden use with cold water only.
- To ensure a tight seal, place washer firmly into coupling at faucet end.
- Do not leave hose under pressure when not in use.
- Drain your hose in the summer when you are not using it and keep it shaded as much as possible. Water left in a hose in the sun will expand, damaging the hose.
- Protect your hose from harsh winter weather by storing it indoors. Be sure to drain the hose completely before storage as water remaining in the hose can freeze, damaging the hose.
- Avoid dragging hose over sharp stones, driveway edges or building foundations.
- Avoid running over hose with trucks, automobiles, wheel-barrows, tractor or mowers.
- Store hose over a curved hose rack, never over a nail or sharp object. Avoid storage near hot pipes or heaters.

⚠ WARNING:

This product can expose you to chemicals including Lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Wash hands after handling.

⚠ **WARNING:** Do not spray water into an electrical outlet. Severe electrical shock could result.

⚠ **WARNING:** Do not drink from this hose. Garden hoses have potential for coming into contact with harmful chemicals used on lawns. Bacteria may form inside the hose where it is dark, damp and warm. It is recommended that water be run through the hose until it is cool before use.
