

Get Current / Stay Current Modernize Central Controllers Promotion

Target Regions: USA

Timeframe: 2021

PC and network security are a significant concern for all internet connected device users. Hardware and software manufacturers have created uncountable product improvements over the past five to ten years, sometimes abandoning older products in the process of better, faster safer products.

Rain Bird GSP is pleased to announce the availability of a budget PC with the latest Central Control release and a one year GSP plan aimed at modernizing and securing courses irrigation system Central Control
