

GSV Series Valves

Industry-Leading Solenoid Valve

Rain Bird® GSV Series Valves deliver reliable performance you can trust year after year in a full line of plastic and brass options. With industry-leading surge protection and precision pressure regulation pre-installed, the GSV Series provides an innovative solution that's strong enough to weather any storm.

Unmatched Surge Resistance

Stand up to the harshest conditions with a solenoid designed and tested to withstand up to 25kV surge events.

Adjustable Pressure Regulation

Maintain the constant pressure you need between 15 and 100 psi (1.04 to 6.90 bar), regardless of incoming pressure fluctuations.

Designed to Resist Chemicals and Reclaimed Water

A chlorine-resistant diaphragm delivers increased protection against harsh chemicals.

RAIN  **BIRD**®

GSV Series Valves

Stand Up to the Storm

- A GBS25 Solenoid delivers 25kV surge protection.
- Built-in filtration for a second level of protection from debris.

Overcome Pressure Fluctuations

- A pre-installed PRS-DIAL regulates outlet pressure in the field for better distribution uniformity.
- Improved pressure spike reduction capabilities reduce water hammer.
- Adjustment knob with an indicator allows fine-tuning in $\frac{1}{3}$ psi (0.02 bar) increments.

Install Extreme Durability

- All models feature a chlorine-resistant diaphragm for applications using reclaimed water and include an optional purple flow control handle and cover to designate non-potable water.
- Ergonomic design with snap-tight cover on waterproof dial cartridge prevents vandalism.
- Scrubber mechanism encapsulates stainless steel screen to dislodge grit and plant material.

A Model for Every Application

Each model in the GSV Series is designed for long-lasting performance, easy maintenance and are available with NPT or BSP threads.
