

Central Control System Service Plans

Global Service Plan

Getting the most from a sophisticated irrigation system can be a challenging task, but Rain Bird helps you every step of the way. Our Global Service Plans enable you to stay in control, optimising performance, controlling costs, and preventing downtime. They provide the tools you need to secure your system, keeping it up to date and running smoothly 24/7. Our dedicated team of engineers delivers remote maintenance and technical support when you need it. All plans renew automatically giving you continuous cover and complete peace of mind.
